

Air Crash Fire Simulator Training

Lesson 1: 12:15

Using the University of Missouri Fire Services Institute Mobile Aircraft Firefighter Trainer, we begin a new series on fighting aircraft fires. Part One is a classroom session where safety points and aircraft firefighting techniques and procedures are discussed, as well as training specifics that are unique to the training prop.

Lesson 2: 10:55

Using the University of Missouri Fire Services Institute Mobile Aircraft Firefighter Trainer, we our two-part series on fighting aircraft fires. In Part Two we tour the interior of the aircraft prior to hands-on evolutions where students extinguish interior and exterior fires using demonstrated techniques.
