

Hotel/High-Rise Response

Lesson 1: 12:52

We begin a new multi-part series covering different aspects of responding to a multi-story hotel fire with mutual aid departments. This evolution concentrates on fire suppression teams and the importance of bringing enough hose, extended hose humping, checking doors for fire, etc.

Lesson 2: 11:59

We continue our multi-part series covering different aspects of responding to a multi-story hotel fire with mutual aid departments. This evolution features the use of R.I.T. in a hotel response environment.

Lesson 3: 6:49

We conclude our multi-part series with a review of Parts I and II and a walk-through of a hotel floor reviewing tips and issues to be dealt with such as wide-area search kits, disorientation, and resource deployment.
